VHSL RATINGS AS OF 9/30

FIGURING A TEAM'S RATING

Beginning with the 2007-08 school year, to find the rating of a team, total the number of points it has earned in accordance with the following table and divide that total number by the number of games played.

	AAA	AA	A
For winning from 24 20 16	24	20	16
For losing from 12 8 4	12	8	4

For each game won by a defeated opponent in any group, add 2 points
For each game won by a non-defeated opponent in any group, add 1 point

Example:
Phoebus has won 5 games against Group AAA opponents. 5x24=120
Phoebus' 5 defeated opponents have won 13 games 13x2=26
Add 12- and 26 for 146 points. Divide by 5 games played for a 29.0 rating

APPLICATIONS OF THE RATING

The rating scale is only used to seed playoff teams and select wild-card teams to fill out playoff brackets.

Each district champion qualifies for the playoffs in its division. Once the district champions are placed in the bracket, the bracket is filled with the non-champions with the highest ratings.

Eight teams make the Division 5 and Division 6 playoffs in the Eastern Region. Region I and Region A+A59 have four-team playoffs in each division.
